	<b>Total</b>	<b>89</b>

Grading is done to bring out the ability of an energy service company (ESCO) to undertake energy efficiency projects. The grading is expected to aid ESCOs in successfully bidding for energy services projects and to arrange financing for the execution of such projects. BEE has now accredited 89 ESCOs through an accreditation process carried out by CRISIL, CARE and ICRA on a 5 point grading scale (1 to 5 with Grade 1 being the best).
