Webinar series on energy efficiency

Energy Management Centre (EMC) is organising a series of webinars titled 'Energy Efficiency in All Walks of Life', starting from 5<sup>th</sup> June, the world environment day extending up to 22 March 2021, the World Water Day.

In the context of COVID 19 pandemic and the high expectation of pravasi entrepreneurship in Kerala, EMC has scheduled a webinar on topic, "Energy efficiency from Design Stage" on World Environment Day to guide returning Pravasis on economic advantages of being energy efficient in new enterprises.

In the wake of the integration of Kerala State Energy conservation Building Code into the Kerala Panchayat and Municipality Building Rules, a seven day certificate course on Energy conservation building code compliance check through energy simulation for practicing engineers and architects in online mode is also scheduled, the first session of which will start on 8<sup>th</sup> June 2020.

This webinar series includes topics on energy efficiency in industry, agriculture, transport, education, tourism, fisheries, dairy development, artificial intelligence, IoT etc. Details will be available at [www.keralaenergy.gov.in](http://www.keralaenergy.gov.in).
