# Energy Management Centre

Sustainable use of energy is important for economic and environmental sustainability. To give a thrust to sustainable use of energy in the State, the Kerala Government established Energy Management Centre (EMC) as an autonomous body under the Department of Power in 1996. It was the first State level initiative in India. EMC has been designated as the State agency to enforce the Energy Conservation Act 2001 with the concurrence of the Bureau of Energy Efficiency, Ministry of Power, Government of India.

The guiding philosophy and school of thought of the Centre is “achieving sustainable development through enhancing energy efficiency and promotion of sustainable energy systems in all sectors of the economy”.

The Centre has designed and organized a number of training programmes, workshops, seminars etc., as part of its efforts to increase the skill and capability of energy professionals like utility engineers, engineers from large and medium scale Industries, other practicing engineers, architects, women volunteers, vehicle drivers and students.

**EMC** has developed a novel institutional and capacity building programme cybernetically integrated. All functional areas of the Centre are linked and facilitated through computer systems.

Besides the Energy Efficiency division, EMC is housing the first UNIDO Regional Centre for Small Hydro Power. Also the Small Hydro Promotion Cell of the Department of Power, Govt. of Kerala is functioning in EMC.

## Library and Documentation System

The Library and Documentation system in EMC was structurally conceptualized, as a multi-disciplinary one, capable of providing adequate information base helpful for achieving the goals and objectives of the Centre. The Library and Documentation facility is fully equipped to help professionals, academics & students, researchers and consultants in areas of energy, viz. efficiency, conservation, planning and management. The Library subscribes to a large number of national and international journals related to energy conservation, renewable and non-renewable energy sources.

- ❖ *Resourceful books in the area of Energy Management, Renewable Energy, Environment, Energy Conservation.*
- ❖ *A good collection of more than 50 periodicals*
- ❖ *Fully computerized with e-search facility.*
- ❖ *Reference CDs, Encyclopedias etc.*
- ❖ *Books are classified in DDC Scheme.*

❖ *“In my opinion sustainable development is economic development based on ecological principles like environmental harmony, economic efficiency, energy (resource) conservation, local self-reliance and equity with social justice”*

*-- Mahatma Gandhi*

**No Energy No Life**

**Conserve Energy to Consume for Ever**

**Conserve Energy for your Children**

**Membership**

EMC Library is now open for reference to Engineers, Scientists and Faculty/Students of Educational /Research Institutions.

**How to become a member**

Submit the application form along with the certified copy of an identity document and membership fee, which may be paid by cash or DD in favour of

**Director, Energy Management Centre**

Payable at Thiruvananthapuram

**Fee structure** (for Reference)

Individuals Rs. 250/- per year

Institutions Rs.1000/- per year (2 cards)

Those who want to takeout the books form the centre should deposit an amount of Rs.5000/- (which will be reimbursed on termination of membership)

**Library Hours**

11 am – 1 pm & 2.30 pm – 4.30 pm

(Prior intimation before visiting would be highly appreciated.)

**Photocopy Facility**

Selected documents can be photocopied (subject to copyright regulations) by paying the prescribed charges.

**Location**

EMC is located just opposite to Thycaud House and near to Thycaud Police ground in Thiruvananthapuram city.
